Tri-Conferences

I am looking forward to our upcoming Kindergarten Tri-Conferences! I am grateful for the opportunity to celebrate your child's achievements and establish new learning goals together.

Dear Parents,

February promises to be a very busy month in Kindergarten! In addition to our regular learning, we will enjoy Valentine's Day and 50 Day.

French

This month we will be learning French vocabulary pertaining to Festival du Voyageur and food. We will continue to work on letter names and their accompanying sounds in French.

Math

In Math, students will be representing and describing a number up to 10 in two parts, using double-sided chips and beads. Students will also be identifying numbers 11 to 15 in French.

Science

In Science, we will continue our study of primary and secondary colours. Students will also sort a variety of objects by colour, and learn French vocabulary used to compare colours. In addition, we will explore our school environment and identify colours of objects in French.

Social Studies

In Social Studies students will review how to be a good friend and community member. Students will also use drama to role-play small problems that occur at school. We will further explore nine ways to solve a small problem as outlined in Kelso's Choices, a wonderful conflict resolution program. To learn more about Kelso's Choices, please click on this link:
